

Tuesday 29 th November 2011		
1530 onwards	Delegate Registration	Coronet/Remarkables Room
1700 – 1900	Student Masterclass	Queenstown Room
1710 – 1735	<i>Kick start your research and capacity building</i> Associate Professor Paul Iji, University of New England, NSW	
1735 – 1800	<i>How to publish your research</i> Professor Dennis Bier, Baylor College of Medicine, USA	
1800 – 1825	<i>Communication of research</i> Associate Professor Lynne Parkinson, University of Newcastle, NSW	
1825 – 1840	<i>From research student to research professional</i> Professor Dorothy Mackerras, Food Standards Australia New Zealand (FSANZ) ACT	
1840 – 1900	<i>Open for Q&A</i>	
1900	Close of Student Masterclass	
1900 – 2030	Welcome Function	Coronet/Remarkables Room

Wednesday 30 th November 2011			
0800 – 0830	Delegate Registration		Coronet/Remarkables Room
0830 – 0900	Official Welcome		Ben Lomond Room
0900 – 1050	Plenary 1 Nutrition in the Lifecycle: What are we Learning? <i>Sponsored by Department of Human Nutrition, University of Otago</i> Chairs: Prof Christine Thomson & Prof Lynne Cobiac		Ben Lomond Room
0900 – 0950	<i>Epidemiology to Epigenetics: what are we not learning through the lifecycle</i> Professor Dennis Bier, Baylor College of Medicine, USA		
0950 – 1020	<i>Diet Quality - Do differences across lifestage, gender and health matter?</i> Professor Clare Collins, The University of Newcastle, NSW		
1020 – 1050	<i>Dietary intake and hearing loss among older people: the increasing epidemiological evidence</i> Associate Professor Vicki Flood, University of Wollongong, NSW		
1050 – 1120	Morning Tea / Posters / Trade Exhibition		Coronet/Remarkables Room
1120 – 1250	Concurrent Session 1 Ben Lomond Room Fatty Acids Chairs: Prof Marlena Kruger & Prof Any Sinclair	Concurrent Session 2 Queenstown Room Minerals and Trace Elements Chairs: Prof Madeline Ball, A/Prof Samir Samman	Concurrent Session 3 Clancy's Room Vitamins Chairs: Prof Dorothy MacKerras & Dr David Woodward
1120 – 1130	<i>DHA supplementation influences cognitive performance in healthy young adults</i> <u>W Stonehouse</u> , C Conlon, J Podd, S Hill, D Kennedy C Haskell	<i>Marginal serum selenium status in Tasmania</i> <u>JM Beckett</u> , IK Robertson, MJ Ball	<i>Can oral supplementation with vitamin B12 reduce vitamin B12 deficiency in South-Asian women of child-bearing age?</i> <u>G Mearns</u> , E Rush, J Koziol-McLain
1132 – 1142	<i>Fish oil supplementation, learning and behaviour in Indigenous Australian children from a remote community school</i> <u>N Sinn</u> , P Cooper, K O'Dea	<i>The effect of zinc supplementation on zinc transporter and metallothionein mRNA expression in type 2 diabetes mellitus</i> <u>M Foster</u> , A Chu, P Petocz, S Samman	<i>Skin type and knowledge of vitamin D and sun exposure in New Zealand mothers</i> <u>CA Conlon</u> , PR von Hurst

Wednesday 30th November 2011 (continued)

	Concurrent Session 1 (cont) Ben Lomond Room Fatty Acids	Concurrent Session 2 (cont) Queenstown Room Minerals and Trace Elements	Concurrent Session 3 (cont) Clancy's Room Vitamins
1143 – 1153	<i>Reduced production of inflammatory cytokines accompanies fish oil-induced increases of the Omega-3 Index</i> <u>AM Coates</u> , CM Milte, JD Buckley, A Ferrante, PRC Howe	<i>Zinc homeostasis and gut function in children with celiac disease</i> <u>CD Tran</u> , R Katsikeros, N Manton, NF Krebs, RN Butler, GP Davidson	<i>The relationship between serum vitamin D and sun exposure in boys with Duchenne muscular dystrophy treated with corticosteroids compared with their healthy siblings</i> <u>ZE Davidson</u> , AJ Kornberg, MM Ryan, M Kimlin, H Truby
1154 – 1204	<i>Hepatic fatty acid partitioning is related to CVD risk factors in women</i> <u>L Hodson</u> , R Banerjee, J Cheeseman, F Karpe, BA Fielding	<i>Does daily iodine supplementation improve cognition in mildly iodine deficient young adults?</i> <u>PCE Fitzgerald</u> , K Redman, T Ruffman, SA Skeaff	<i>The relationship of vitamin D receptor gene polymorphisms with insulin resistance in vitamin D deficient women</i> <u>PR von Hurst</u> , R Jain, W Stonehouse, CM Higgins, DR Love, J Coad
1205 – 1215	<i>Validation of a semi-quantitative food frequency questionnaire to assess polyunsaturated fatty acid intakes in the New Zealand population</i> <u>MA Ingram</u> , W Stonehouse, BJ Meyer, KG Russell, R Kruger	<i>Iron status in female Australian blood donors</i> <u>AO Booth</u> , H Capper, J Fisher, D Irving, A Keller, K Lim, SA McNaughton, L Riddell, CA Nowson	<i>Sarcopenia and vitamin D deficiency are risk factors for falls but remain undetected in aged care residents</i> <u>S Iuliano</u> , J Woods, E Seeman
1216 – 1226	<i>Omega-3 fatty acid intake and incidence of type 2 diabetes</i> <u>A Alhazmi</u> , E Stojanovski, M McEvoy, ML Garg	<i>Suboptimal iron status and associated dietary patterns in pre-menopausal women living in Auckland, New Zealand</i> <u>K Beck</u> , R Kruger, C Conlon, C Matthys, J Coad, ALM Heath, W Stonehouse	<i>Folic acid deficiency causes rapid, deleterious effects on telomere function and chromosome stability in human WIL2-NS cells in vitro</i> <u>CF Bull</u> , NJ O'Callaghan, V Dhillon, S Mitchell, G Mayrhofer, MF Fenech
1228 – 1238	<i>Assessment of the effects and acceptability of a higher fish diet in women of child-bearing age</i> <u>L Chan</u> , M Miller, C Thompson, J Midgley, L Cobiac	<i>The effects of non-anaemic iron deficiency on cognition, mental health and fatigue in women of childbearing age: A systematic review</i> <u>AJ Greig</u> , AJ Patterson, CC Collins, KA Chalmers	<i>Mandatory folic acid fortification – who stands to benefit? results from a New Zealand postpartum survey</i> <u>SR Mallard</u> , AR Gray, LA Houghton

Wednesday 30 th November 2011 (continued)			
1240 – 1250	Concurrent Session 1 (cont) Ben Lomond Room Fatty Acids <i>Transcriptional and metabolic responses following flaxseed oil supplementation in two dog breeds</i> D Purushothaman, WY Brown, S-B Wu, BA Vanselow	Concurrent Session 2 (cont) Queenstown Room Minerals and Trace Elements <i>Iron status and dietary intake of Solomon Island women living in New Zealand</i> R Kafa, W Stonehouse, R Kruger, C Conlon	Concurrent Session 3 (cont) Clancy's Room Vitamins <i>Bias within the folate microbiologic assay: implications for monitoring folate status</i> RA Stamm, MJ Harper, LA Houghton, BJ Venn
1250 – 1350	Lunch / Posters / Trade Exhibition		Coronet/Remarkables Room
1350 – 1450	Dairy Australia Lecture: Impact of dairy consumption on the risk of cardiovascular disease Chair: Dr Paul Nestel Presenter: Professor Bruce Griffin, University of Surrey, UK		Ben Lomond Room
1450 – 1550	Poster Session 1 Chairs: A/Prof Russell Keast & Dr Alison Wallace		Coronet/Remarkables Room
1550 – 1620	Afternoon Tea / Posters /Trade Exhibition		Coronet/Remarkables Room
1620 – 1730	Concurrent Session 4 Ben Lomond Room Determinants of Eating Behaviour Chairs: Prof Hans Brug & Dr Paula Skidmore	Concurrent Session 5 Queenstown Room Carbohydrates, Insulin Sensitivity, & Glycaemia Chairs: Prof Jenny Brand-Miller & Dr Bernard Venn	Concurrent Session 6 Clancy's Room Sodium and Salt Chair: Dr Lynne Riddell
1620 – 1630	<i>Role of nutrition knowledge in the association between socioeconomic position and takeaway food consumption</i> K Miura, K Giskes, G Turrell	<i>Glycaemic response and glycaemic index for rice in people of European and Chinese ethnicity</i> M Kataoka, B Venn, SM Williams, LA Te Morenga, JI Mann	<i>Salt loading in canola oil fed SHRSP rats induces endothelial dysfunction</i> A Papazzo, L Lexis, P Lewandowski
1632 – 1642	<i>Food expenditure of food insecure families: a reality check</i> C Smith, WR Parnell, RC Brown	<i>Food Intolerances: restriction of dietary FODMAPs reduces gastrointestinal symptoms in patients with irritable bowel syndrome</i> EP Halmos, JG Muir, SJ Shepherd, PR Gibson	<i>The effect of seasonal heat acclimatisation on fluid and electrolyte losses in endurance trained athletes</i> NA Lowth, VS Miller, GP Bates

Wednesday 30 th November 2011 (continued)			
	Concurrent Session 4 (cont) Ben Lomond Room <i>Determinants of Eating Behaviour</i>	Concurrent Session 5 (cont) Queenstown Room <i>Carbohydrates, Insulin Sensitivity, & Glycaemia</i>	Concurrent Session 6 (cont) Clancy's Room <i>Sodium and Salt</i>
1645 – 1655	<i>Describing socioeconomic gradients in children's diets – does the socioeconomic indicator used make a difference?</i> <u>DM Zarnowiecki</u> , N Sinn, K Ball, J Dollman	<i>Breaking prolonged sitting reduces postprandial glycemia & insulinemia in healthy adults</i> <u>M Rose-Peddie</u> , J Bone, N Rehrer, T Perry	<i>Salt intake assessed by 24-hr urine collection in Australian school children aged 5-13 years</i> <u>CA Grimes</u> , KJ Campbell, LJ Riddell, CA Nowson
1657 – 1707	<i>Effects of a free school breakfast programme on children's attendance, academic achievement, and short-term hunger: a stepped-wedge, cluster randomised controlled trial</i> <u>C Ni Mhurchu</u> , D Gorton, M Turley, Y Jiang, J Michie, R Maddison, J Hattie	<i>The influence of caffeine on consumption of sugar sweetened beverages</i> <u>PS Oliver</u> , LJ Riddell, K Lim, RSJ Keast	<i>Long term effects of modest salt reduction on vascular function in overweight and obese subjects</i> <u>KM Dickinson</u> , PM Clifton, JB Keogh
1709 – 1719	<i>Patterns of stress, mood and eating behaviour in a student population</i> <u>BA White</u> , CC Horwath, TS Conner	<i>Kernel intactness, carbohydrate digestibility and the relative glycaemic impact of white, wholemeal, multigrain and mixed grain breads</i> <u>JA Monro*</u> , S Mishra	<i>Salt intake in a rural Australian population</i> <u>M Land</u> , J Webster, W Smith, J Chalmers, C Nowson, M Woodward, L Szabo, V Flood, B Neal
1720 – 1730	<i>Fish intake and barriers towards its consumption in older adult Australians</i> <u>JA Grieger</u> , M Miller, L Cobiac	<i>Effects of resistance training and detraining and muscle fibre type on insulin responses to a glucose load</i> <u>NJ Rehrer</u> , KS Schofield, TL Perry, A Ross, JL Andersen, H Osbourne	<i>The influence of body composition and inflammation on lung function in asthma</i> <u>HA Scott</u> , PG Gibson, ML Garg, JJ Pretto, PJ Morgan, R Callister, LG Wood
1740 – 1830	The Nutrition Society of New Zealand Annual Muriel Bell Lecture: Politics of nutrition Chair: A/Prof Jane Coad Presenter: Jenny Reid, The Ministry of Agriculture and Forestry, NZ		Ben Lomond Room

Wednesday 30th November 2011 (continued)

1900 – 2130

Workshop for Mid-Career Researchers: Publishing in high quality journals (Pre-Booked)

Sponsored by: Australian Academy of Science National Committee for Nutrition

Chair: Prof Andy Sinclair

Presenter: Professor Dennis Bier, Editor of American Journal of Clinical Nutrition

**Tatlers Restaurant
5 The Mall, Queenstown**

Thursday 1 December 2011			
0715 – 0815	Young Investigators Breakfast (Pre-Booked)		Clancy's Room
0830 – 1010	Plenary 2: Eating Green: Foods and Diets, Attitudes and Policies Chairs: Prof Caryl Nowson & Dr Sheila Skeaff		Ben Lomond Room
0830 – 0910	<i>Eating Green: the policy challenge of sustainable diets</i> Professor Tim Lang (via Video Link), City University, UK		
0910 – 0940	<i>Eating Green: research for nutrition and food sustainability</i> Professor Robert Henry, University of Queensland, QLD		
0940 – 1010	<i>The relationship between our food choices and farm animal welfare</i> Dr Kathryn Bicknell, Lincoln University, NZ		
1010 – 1040	Morning Tea / Posters / Trade Exhibition		Coronet/Remarkables Room
1040 – 1150	Concurrent Session 7 Ben Lomond Room Childhood & Adolescence Chairs: Dr Rozanne Kruger & Dr Natalie Sinn	Concurrent Session 8 Queenstown Room Obesity Chairs: Prof Bernhard Breier & Prof Peter Howe	Concurrent Session 9 Clancy's Room Antioxidants Chairs: Prof Manohar Garg & Prof Graeme McIntosh
1040 – 1050	<i>Parents know breakfast is the most important meal of the day, so why are so many children not eating breakfast?</i> <u>RM Whiting</u> , S J Murray	<i>Body weight and mortality in older adults: a meta-analysis</i> <u>J Winter</u> , N Wattanapenpaiboon, C Nowson	<i>The effect of high fat dairy or high fat soy on anti-oxidative & oxidative markers</i> <u>GP van Egmond</u> , AE Larsen, D Cameron-Smith, PA Lewandowski
1052 – 1102	<i>A randomised controlled trial to compare the effect of breakfast cereals differing in fibre content on short-term appetite and mood in 8-12 year old children</i> <u>E Brindal</u> , G Hendrie, M Noakes, M Celander, G Brinkworth	<i>Investigating the obesity paradox in ex-smokers</i> <u>JM Smart</u> , PA Wark, LG Wood	<i>Antioxidant capacities of cooked spinach prepared in Indian styles</i> <u>S Ghosh Das</u> , SL Mason, GP Savage

Thursday 1 December 2011 (continued)			
	Concurrent Session 7 (cont) Ben Lomond Room Childhood & Adolescence	Concurrent Session 8 (cont) Queenstown Room Obesity	Concurrent Session 9 (cont) Clancy's Room Antioxidants
1104 – 1114	<i>The association between birth weight and current weight status in Australian children and adolescents</i> JCY Louie, P Petocz, <u>JC Brand-Miller</u>	<i>A systematic review of corticosteroid use, dietary intake and body weight in adults</i> <u>BS Berthon</u> , LK MacDonald-Wicks, LG Wood	<i>Effects of oleocanthal and ibuprofen on proliferation in C2C12 myoblasts</i> <u>L Lucas</u> , A Russell, C Wright, E Zacharewicz, AB Smith III, R Keast
1116 – 1126	<i>Analysis of non-core food and beverage advertising to children on Australian television</i> <u>PE Craig</u> , G Annisson	<i>Factors associated with body mass index in a nationwide cohort of mid-age women</i> <u>SL Leong</u> , C Madden, A Gray, DL Waters, CC Horwath	<i>Dietary supplementation with resveratrol normalizes histone deacetylase (HDAC4) in the hippocampus of streptozotocin-induced diabetic mice</i> <u>J Thomas</u> , DW Smith, ML Garg
1128 – 1138	<i>Adequacy of current protein recommendations: a case for enteral feeding</i> <u>N Schoendorfer</u> , U Tinggi, N Sharp, L Vitetta, R Boyd, P Davies	<i>Dietary induced weight loss improves asthma control and lung function after ten weeks in obese children and adolescents with asthma</i> <u>ME Jensen</u> , CE Collins, PG Gibson, JM Hilton, LG Wood	<i>Emu Oil enhances histological repair in a rat model of chemotherapy-induced intestinal mucositis</i> <u>SM Abimosleh</u> , CD Tran, GS Howarth
1140 – 1150	<i>Reliability of a Food Frequency Questionnaire (FFQ) for New Zealand adolescents</i> <u>JE Wong</u> , W Parnell, P Skidmore	<i>Postprandial response of subcutaneous adipose tissue in healthy adults</i> <u>AL Dordevic</u> , FJ Pendergast, MK Caldow, AE Larsen, D Cameron-Smith	<i>Antiviral activity of antioxidants against rhinovirus infection</i> <u>FH Addnan</u> , PAB Wark, LG Wood, ML Garg
1150 – 1250	Lunch Sponsored by Regal Salmon / Posters / Trade Exhibition		Coronet/Remarkables Room
1220 – 1320	Annual General Meeting: Nutrition Society of Australia		Queenstown Room
1220 – 1320	Annual General Meeting: Nutrition Society of New Zealand		Clancy's Room

Thursday 1 December 2011 (continued)		
1320 – 1510	Plenary 3: Social and Environmental Determinants of Eating Behaviours <i>Sponsored by Clinical Trials Research Unit, University of Auckland</i> Chairs: A/Prof Cliona Ni Mhurchu & Dr Sarah McNaughton	Ben Lomond Room
1320 – 1410	<i>Childhood obesity prevention in Europe: the science of behavior change</i> Professor Hans Brug, VU University Medical Center, The Netherlands	
1410 – 1440	<i>Socioeconomic disadvantage and diet: understanding and promoting 'resilience'</i> Professor Kylie Ball, Deakin University, VIC	
1440 – 1510	<i>Forget schools: how do we tackle the home environment for effective obesity prevention?</i> Associate Professor Rachael Taylor, Dunedin School of Medicine, NZ	
1510 – 1540	Afternoon Tea / Posters / Trade Exhibition	Coronet/Remarkables Room
1540 – 1640	Poster Session 2 Chairs: A/Prof Sally Poppitt & A/Prof Barbara Meyer	Coronet/Remarkables Room
1640 – 1725	Nutrition Society of Australia Awards	Ben Lomond Room
1900 – 1915	Transportation to Skyline Restaurant Pre-Booked	Lobby, Ground Floor
1930 – 2300	Conference Dinner Skyline Restaurant Pre-Booked (including student awards)	Skyline Restaurant, Brecon Street

Friday 2 December 2011			
0830 – 1010	Plenary 4: Dietary Proteins and Carbohydrates for Optimal Health: Towards Consensus <i>Sponsored by Kellogg's Nutrition</i> Chairs: Prof Stewart Truswell & A/Prof Manny Noakes		Ben Lomond Room
0830 – 0910	<i>The role of protein and carbohydrates for weight loss and maintenance: evidence from the Diogenes study</i> Professor Arne Astrup (via video link), University of Copenhagen, Denmark		
0910 – 0940	<i>Macronutrient balance and energy intake: the protein leverage hypothesis</i> Professor David Raubenheimer, Massey University, NZ		
0940 – 1010	<i>Protein and CHO for weight control: what role for hunger and appetite regulation?</i> Associate Professor Sally Poppitt, University of Auckland, NZ		
1010 – 1040	Morning Tea / Posters / Trade Exhibition		Coronet/Remarkables Room
1040 – 1150	Concurrent Session 10 Ben Lomond Room <i>Dairy, Calcium and Bone Health</i> Chairs: Dr Sandra Iuliano & Dr Paul Roach	Concurrent Session 11 Queenstown Room <i>Pregnancy and Early Childhood</i> Chairs: A/Prof Jill Sherriff & Dr Cath Conlon	Concurrent Session 12 Clancy's Room <i>New Zealand Adult Nutrition Survey</i> <i>Sponsored by the Department of Human Nutrition, University of Otago</i> Chair: A/Prof Winsome Parnell
1040 – 1050	<i>Lipidomic analysis of chylomicron response following ingestion of high fat dairy- and soy-based breakfasts in men with metabolic syndrome</i> <u>AJ Sinclair</u> , MP Bonham, D Cameron-Smith, P Meikle	<i>Nutritional and environmental risk factors for young children in Auckland, New Zealand, developing community acquired pneumonia – a case-control study</i> <u>MJ Gibbons</u> , CR Wall, CC Grant	<i>Methodology of the 2008/2009 New Zealand Adult Nutrition Survey</i> <u>JC Miller</u> , ALM Heath, RC Brown, HL Walker, AR Gray, CW Blakey, EA Fleming, SD Mackay, ML Turley, DR Weerasekera, RM Templeton, WR Parnell
1052 – 1102	<i>Added carbohydrates in children's milk products increase dietary glycaemic load</i> F Atkinson, R Cannan, B Soo, S Haylock, M Suzari, <u>AM Rowan</u> , J Brand-Miller	<i>General nutrition knowledge mediates parental influences on the diets of 2-5 year old children</i> <u>J Peters</u> , N Sinn, J Dollman, K Campbell, J Lynch	<i>Disentangling the obesity epidemic: results from the 2008/2009 New Zealand Adult Nutrition Survey</i> <u>LA Te Morenga</u> , SM Williams, JI Mann, WR Parnell

Friday 2 December 2011 (continued)			
	<p>Concurrent Session 10 (cont) Dairy, Calcium and Bone Health Ben Lomond Room</p>	<p>Concurrent Session 11 (cont) Pregnancy and Early Childhood Queenstown Room</p>	<p>Concurrent Session 12 (cont) New Zealand Adult Nutrition Survey Clancy's Room</p>
1104 – 1114	<p><i>Potential healthcare savings from increased consumption of dairy products in Australia</i> <u>JC Doidge</u>, L Segal, E Gospodarevskaya</p>	<p><i>Improved iodine status of breastfeeding women a year after introduction of mandatory fortification</i> <u>KE Charlton</u>, S Axford, H Yeatman, G Ma</p>	<p><i>The prevalence of diabetes and pre-diabetes – will the health system cope with the demand?</i> <u>KJ Coppel</u>, JI Mann, SM Williams, WR Parnell</p>
1116 – 1126	<p><i>Circulating inflammatory and atherogenic biomarkers are not increased following single meals of dairy foods</i> <u>PJ Nestel</u>, S Pally, S Middleton, PJ Meikle</p>	<p><i>Maternal dietary omega-3 PUFA intakes, food sources and comparison to recommended intakes</i> <u>BJ Meyer</u>, M Jamei, PL Else, M Williamson, R Gibson, M Makrides</p>	<p><i>How much sodium are we eating? Estimates of population sodium intake from the 2008/2009 New Zealand Adult Nutrition Survey</i> <u>RM McLean</u>, SM Williams, JI Mann</p>
1128 – 1138	<p><i>Australian children who drink plain or flavoured milk have higher dietary micronutrient intakes</i> <u>F Fayet</u>, L Ridges, J Wright, P Petocz</p>	<p><i>Food intolerances: possible role of poorly absorbed short chain carbohydrates (FODMAPs) in the genesis of colic in infants</i> M Iacovou, <u>JG Muir</u>, H Truby, KZ Walker, R Rose, K Liels, O Rosella, PR Gibson</p>	<p><i>Folate and iodine status of adults prior to fortification of bread: Results from the New Zealand 2008/2009 Adult Nutrition Survey</i> <u>KE Bradbury</u>, SA Skeaff, C Thomson, CM Skeaff, S Williams, JI Mann, R Brown, W Parnell</p>
1140 – 1150	<p><i>Microbial phytase improves bone mineral density (BMD)</i> <u>SM Rutherford</u>, TK Chung, PJ Moughan</p>	<p><i>Micronutrient intake and supplement usage of pregnant and lactating women in New Zealand</i> <u>Y Jin</u>, L Brough</p>	<p><i>Food security as a predictor of body weight status: results from the 2008/2009 Adult Nutrition Survey</i> <u>HS Stevenson</u>, BJ Venn, WR Parnell</p>
1150 – 1250	Lunch / Posters / Trade Exhibition		Coronet/Remarkables Room
1250 – 1410	<p>Plenary 5: Lean machines: nutrition in sport Chairs: Prof David Cameron-Smith & Dr Tracy Perry</p>		Ben Lomond Room
1250 – 1330	<p><i>New science in sports nutrition</i> Dr Helen O'Connor, University of Sydney, NSW</p>		
1330 – 1350	<p><i>Caffeine and sport - when two addictions collide</i> Ben Desbrow, University of Griffith, QLD</p>		
1350 – 1410	<p><i>Ergogenesis in sport: chasing the drug cheats</i> Professor David Gerrard, University of Otago, NZ</p>		

Friday 2 December 2011 (continued)			
1410 – 1440	Afternoon Tea		Roof Top
1440 – 1550	Concurrent Session 13 Ben Lomond Room Metabolic Aspects of Obesity Chairs: Dr Lisa Wood & Dr Leanne Hodson	Concurrent Session 14 Queenstown Room Eating Your Greens Chairs: A/Prof Karen Charlton & Dr Geoff Savage	Concurrent Session 15 Clancy's Room Diet and Health Chair: Welma Stonehouse
1440 – 1450	<i>Baseline sympathetic nervous system activity predicts dietary weight loss in obese metabolic syndrome subjects</i> NE Straznicky, N Eikelis, PJ Nestel, JB Dixon, T Dawood, MT Grima, CI Sari, GW Lambert, MP Schlaich, AJ Tilbrook, EA Lambert	<i>Estimation of individual classes and total antioxidant intake of Australians</i> KMM Bauer, J Bryan, <u>KJ Murphy</u>	Have we changed? National adult nutrition surveys from 1997 to 2008/09 <u>S MacKay</u>
1452 – 1502	<i>Metabolic responses to high-fat diets rich in n-3 or n-6 long-chain polyunsaturated fatty acids in mice selected for either obesity or leanness</i> <u>BH Breier</u> , K Nuernberg, D Dannenberger, N Thompson, H Bergmann, K Huber	<i>Transtheoretical model mediators of fruit and vegetable intakes in the 5+ YourWay study</i> I Hart, <u>L Mainvil</u> , E Hargreaves	<i>Microbial saccharolytic enzymes, dietary fibre, and gastrointestinal health</i> <u>CA Butts</u> , D Rosendale, D Hooton, H Stoklosinski, D Hedderley, G Paturi, N Roy, J Ansell
1504 – 1514	<i>Pre-supplementation with LCn-3PUFA for weight loss and improved blood biomarkers</i> <u>IA Munro</u> , ML Garg	<i>Acceptance of health promoting brassica vegetables: the influence of taste perception, information and attitudes</i> <u>DN Cox</u> , L Melo, D Zabarar, CM Delahunty	<i>Energy and macronutrient intake among those susceptible or resistant to obesity</i> <u>RT McLay-Cooke</u> , RC Brown, SL Richardson, A Chisholm, SM Williams, PML Skidmore
1516 – 1526	<i>A one year high protein, low fat weight loss diet improves body composition and cardiometabolic risk factors in overweight males with features of the metabolic syndrome</i> <u>TP Wycherley</u> , GD Brinkworth, PM Clifton, M Noakes	<i>Out of the box: factors preventing households from eating more fruit and vegetables</i> <u>S Carty</u> , L Mainvil, J Coveney, J Bowden, J Brand, E Connor, C Dollery, J Maaka, E McCulloch, K Meuli, H Ryan, L Watson	<i>Eicosapentaenoic acid in the treatment of skeletal muscle wasting in cancer cachexia</i> <u>VC Vaughan</u> , E Hinch, M Sullivan-Gunn, P Lewandowski

Friday 2 December 2011 (continued)			
	Concurrent Session 13 (cont) Metabolic aspects of Obesity Ben Lomond Room	Concurrent Session 14 (cont) Eating Your Greens Queenstown Room	Concurrent Session 15 (cont) Diet and Health Clancy's Room
1528 – 1538	<i>High-protein, weight loss down-regulates gene expression involved in fatty acid and mitochondrial energy metabolism</i> <u>CM Mclver</u> , PM Clifton	<i>Kiwifruit proteases enhance digestion of common protein-based foods under simulated gastric and small intestinal conditions</i> <u>L Kaur</u> , MJ Boland, SM Rutherford, LN Drummond, PJ Moughan	<i>Changes in dietary habits in men after consultation based on the nine-step New Zealand Heart Foundation guidelines</i> <u>R Kruger</u> , CS Gammon, CA Conlon, PR von Hurst, W Stonehouse
1540 – 1550	<i>Susceptibility to weight gain: the role of appetite regulation</i> <u>CJ Moore</u> , K Wiessing, L Xin, NA King, SD Poppitt	<i>Psychosocial determinants of fruit and vegetable consumption among New Zealand university students: results of focus group interviews</i> <u>DP Wadsworth</u> , H Hartman, P van Assema, SJ Penny, R Page	<i>Psychological distress, physical inactivity and obesity in farm men and women – the “Farming Fit” study</i> <u>SJ Torres</u> , A Chandrasekara, S McCoombe, H Simkin, P Kremer, P Lewandowski, S Brumby
1550 – 1610	Closing Ceremony		Ben Lomond Room
1730	Depart for Gibbston Valley Wine Tour Pre-Booked		Lobby, Ground Floor
