| Melanie      | Corbett           | Chair of Education                    | The Royal College of Ophthalmologists, UK | LONDON      | Miss Corbett is a Consultant Ophthalmologist at The Western Eye Hospital, Imperial College NHS Trust, London, specialising in Cornea, Ocular Surface and Anterior Segment Surgery. She has held multiple roles in Education and Training both regionally and nationally, and is currently Chair of Education for the Royal College of Ophthalmologists (RCOphth), UK. In 2004 she was involved in setting up the RCOphth Training the Trainers (TTT) Programme with the aim of supporting and up-skilling trainers, to provide a consistently high level of ophthalmology training across the nations. As TTT Lead from 2010, she refined and expanded the programme, developed training materials and introduced courses for both trainees and at advanced level. From 2013 she led a partnership with the College of Ophthalmologists of Eastern Central and Southern Africa (COECSA) to cascade training processes and the TTT courses across 10 countries in Africa, and then set up a similar programme in South East Asia. As Chair of Education she has led projects to develop a digital learning platform (INSPIRE) for the College and establish the Ophthalmic Practitioner Training (OPT) Programme to promote postgraduate non-medical workforce development.                                                                                                                                                                                                                                                           |
| Ivica (Ivan) | Ducic             |                                       | Washington Nerve Institute                | USA         | <p>Ivica Ducic, MD, PhD, is a Board-Certified Plastic Surgeon with additional training and expertise in nerve surgery. He received both his MD and PhD degree in neurosciences from the University of Zagreb School of Medicine in Croatia. Upon completing a six-year Plastic Surgery training at Georgetown University Hospital, he then entered a one-year peripheral nerve surgery fellowship at the Institute for Peripheral Nerve Surgery before joining the faculty at Georgetown University Hospital Department of Plastic Surgery in 2003, where he served as the Professor of Plastic Surgery and Neurosurgery.</p> <p>In 2014 Dr. Ducic established the Washington Nerve Institute in McLean, VA and since then also serves as the Clinical Professor of Surgery at George Washington University. Dr. Ducic's practice is exclusively focused on the surgical management of nerve injuries and chronic pain triggered by trauma or surgery, aiming to improve the QOL of patients with complex nerve injuries. With the commitment to science and education, Dr. Ducic provided over 300 invited lectures, has led the journal nerve section as editor, has published over 106 peer-reviewed papers and 17 book chapters. In addition to the various committees on which he has served or chaired, Dr. Ducic is the Past-President of the American Society for Peripheral Nerve. Owing to his expertise in nerve surgery, Dr. Ducic often lectures as a Visiting Professor at many national and international events.</p> |

| Stuart           | Stenton | Medical Student | University of Tasmania                                         | TASMANIA   | Stuart Stenton is a final-year medical student at the University of Tasmania at the Launceston Clinical School.. With a keen interest in plastic and reconstructive surgery, he undertook this research under the mentorship of Mr Michael Thomson FRACS.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Swee             | Tan     | Chair           | Gillies McIndoe Research Institute                             | Wellington | Swee Tan is a consultant plastic surgeon at hutt Hospital and the founder and chair of the Gillies McIndoe Research Institute in Wtg.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Richard          | Tee     | Consultant      | Plastic Reconstructive Surgery Melbourne                       | NSW        | Richard is a proud New Zealand trained reconstructive plastic surgeon, who would like to consider himself an academic. He is currently resides in his university flatmate's couch in Melbourne, very soon moving to Singapore as a Hand and Microsurgeon'                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Novell Shu Chyng | Teoh    | Registrar       | Waikato DHB                                                    | WAIKATO    | Novell Teoh has completed her medical degree (MBChB) at University of Auckland, New Zealand in 2019. She is currently a plastics surgery registrar at Waikato Hospital, New Zealand. She is passionate about dermatology and plastics surgery. She has completed a research looking at teledermoscopy service (ie remote service using dermatoscope to provide imaging and remote diagnosis). She has presented this research at Biannual Research Seminar in 2019, followed by 9th World Congress of Teledermatology, Imaging and AI for skin disease in 2021 and 2nd International Congres of Plastics Surgery and Cosmetology 2024. This research has also been published in JMIR Dermatology 2022.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Daniel           | Wen     | Registrar       | Hutt Hospital                                                  |            | Daniel is a surgical registrar based in the Auckland region, he will be presenting his research focused on melanoma incidence in New Zealand                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Simon            | Wood    | Consultant      | Charing Cross Hospital, Imperial College Health Care NHS Trust | LONDON     | <p>Simon Wood is a Consultant Plastic Surgeon at Imperial College NHS Trust in London. Appointed in 1999 with his principal base at Charing Cross Hospital, he provides joint care for patients across all other hospitals in the Trust. He was appointed with a Specialist Interest in cancer reconstruction, particularly for Head &amp; Neck, Breast and Skin cancer but over the last 15 years has had an increased interest in managing complex abdominal wall hernias with referrals received from widely across the UK.</p> <p>He particularly enjoys using and teaching microsurgical techniques, and performed a dedicated period of research assessing the microvascular changes induced by flap elevation during his training. Since then, he has continued with clinical research in reconstructive surgery publishing more than 50 papers.</p> <p>Simon has a longstanding interest in education and training. He was on the Specialist Advisory Committee (SAC) in Plastic Surgery from 2012, which oversees plastic surgery training in the UK and Republic of Ireland. His specific responsibility was as Lead for National recruitment in Plastic Surgery and was also Liaison Representative for Scotland. He was appointed Chair in 2015-18, representing</p> |
